

HOUSE OF LORDS IS THREATENED

British Liberals Inclined to Force the Budget Upon Upper Chamber.

Newcastle, Eng., Oct. 9.—David Lloyd-George, the chancellor of the exchequer, received a popular welcome this afternoon at the Palace theatre here, where he gave to an audience of 4,000 what he called a "plain talk" on the subject of the budget.

"We are going to send that bill up to the house of lords and get all the taxes of none," said the chancellor. He did not know what would be the final action to be taken by "poor Lord Lansdowne, with his creaking old ship and mutinous crew," but if the lords tore up the constitution by interfering with the money bill they would force a revolution.

"The lords may decree a revolution, but the people will direct it if it is begun, and issues will be raised that are now little dreamed of, the answers to which will be charged with peril for the order of things which the peers represent," said the chancellor.

When Lloyd-George was leaving the theatre a crowd of suffragettes made a dash toward his car.

Lady Constance Lytton, who was armed with a hatchet, Mrs. H. N. Brailsford and Miss Davidson were arrested. Earlier in the day four other sympathizers with the suffragettes were sentenced to fourteen days at hard labor for indulging in a window smashing campaign at the local Liberal club.

DETROIT TIGERS GET A SWEET REVENGE

Continued from Page 1.

Cobb hit safely once in six times for an average of .167.

Pittsburg started with a rush when Byrne walked, and Leach immediately scored him with a ringing two-base hit to right. Clark sacrificed Leach to third and Wagner struck out Miller. A long hit into the crowd in the temporary stand in right field and completed the circuit of the bases, scoring Leach. The umpires—Evans and Klem—held a conference and trotted out to look at the stand, and decided it was a two-bagger under the ground rules because the stand was only temporary. Leach scored all right, but Miller was sent back to second base. Abstein struck out, ending the inning.

After that Pittsburg was practically helpless with the bats. It was in the second inning that Detroit began to break into the limelight by scoring two runs. Crawford opened by striking out and Delehanty was sent to third on a left hit, Moriarty going to third on a hit

and run signal. Schmidt then tried the score by doubling over Leach's head and Moriarty and T. Jones counted. D. Jones started the third inning with a pretty bunt along the third base line. Byrne made a magnificent assist, but Abstein dropped the ball and Jones was safe. Bush hit safely to left and D. Jones went to second. Cobb then worked the fast-weakening Cannitz for a base on balls, filling the bases. Crawford sent a short fly to Clarke, but there was no chance for D. Jones to score so he did not try.

Delehanty Scores Two.

Delehanty shot a hot single over second base and D. Jones and Bush scored. While then succeeded Cannitz. Cobb stole home and Moriarty worked the new pitcher for a pass. T. Jones grounded to Willis and Delehanty was forced at third. Schmidt ended the inning with a fly to Clarke.

In the fifth Detroit scored two more runs. After Abstein made a remarkable one-handed stop of Cobb's boulder over first base, Crawford doubled along the left field foul line. Delehanty drew a pass and Moriarty popped an easy fly to Abstein. T. Jones walked, Schmidt singled to center, scoring Crawford and Delehanty, but T. Jones was caught trying to reach.

Cobb opened the seventh with a boulder over second for his first hit of the series. Crawford was out, Miller to Abstein, and Cobb electrified the crowd by trying to make third base on the infield out. There was a close decision at third base and Klem called him out. After that there was nothing more doing for Detroit.

And the Score.

PLAYTIME IS OVER AND MR. TAFT GOES TO WORK

Continued from Page 1.

Yosemite was a place in which to say one's prayers, and never should be used for commercial purposes. President Taft has been deeply impressed with the beauty, not only of the valley itself, but the entire Yosemite park. He declared that the park had been neglected, as compared with the Yellowstone.

Plan of Improvement.

Mr. Taft is anxious that some definite plan of improvement shall be agreed upon, in order that progress may be made year by year. Road building is the first great need, as the President himself has suggested, and he probably will make some recommendation on the subject in his forthcoming message to congress.

Arriving at the floor of the valley today, the President was greeted by Galen Clark, 97 years old, who was the first white man to make known the existence of the giant sequia trees of the Mariposa groves. Mr. Clark does not claim to have been the first man to see the mammoth forest, for he found a prospector's outfit there when he went in. It is his theory that the prospector was a white man, who had been slain by Indians.

The result of the President's trip into the Yosemite has been to make him an enthusiast of forestry. The secluded sequias were not responsible for their stay in a class by themselves. For three days the president has traveled through succeeding forests of yellow and sugar pine and fir trees that have towered from 200 to 300 feet above the road, and they have called out constant expressions of his admiration. To many the slender, arrow-like grace of the pines and the fir holds more beauty

ANOTHER ACTRESS ARRIVES

MISS FLORENCE GALE.

With the arrival in Salt Lake yesterday of Miss Cora Hall, who played heavy parts in the ill-fated Enterprise Stock company, five members of that company have succeeded in reaching this city, where they have found friends among the theatrical profession. Miss Florence Gale, the leading woman, and three other members of the company arrived the latter part of last week, and are located at a downtown hotel. Even the desertion of Pelton & Smut-

zer's men, leaving them in Soda Springs without money, was not sufficient to keep them from the actors' western Mecca.

Miss Hall confirms the story told by Miss Gale, which was printed in The Herald-Republican of Tuesday, to the effect that the company was deserted at Soda Springs about ten days ago by the managers, John Schuler and Charles Galbough, two of Pelton & Smut-

IT IS BELOW BELT NOW.

Successful Pitchers Today Use Low Ball to Win.

(BY J. ED GRILLO.)

Not more than four years ago a pitcher who had command of a high, fast ball, was successful, yet this sort of pitching nowadays is hit to all corners of the lot. Then every manager instructed his pitchers to keep his fast ball about shoulder high. The youngsters were taught this, and it worked almost invariably against every batter. But there has been a change. The batters have mastered the high ball, and in so doing have forgotten much about connecting with the low ones. The successful pitcher today is the one who pitches but few balls above the waist. Any time you see a pitcher using that high, fast one, you usually see his delivery taken kindly by the batters. No less than 90 per cent of the successful pitchers in the major leagues today work the batters with low balls. It is not only hardest to hit, because it is impossible for the batter to follow a low curve ball, but it is also the hardest ball to bunt. Where you find one player who can hit a low one, there are thirty who prefer a high one.

ONE KICK FOR YOST.

Ann Arbor, Mich., Oct. 9.—After holding Michigan to no score in the first half, Case Scientific school of Cleveland was defeated today by the score of 3 to 0.

TAMMANY TIGER FIGHTING FOR ITS LIFE IN GOTHAM

Continued from Page 1.

person and declare his attitude with respect to the entire matter of city government."

Hearst's friends all predict that he stands ready to make another whirlwind campaign, such as he made in 1905. Bannard and the Republican leaders expressed nothing but satisfaction today at Hearst's entering the field. All talk of Bannard's withdrawal and allowing Hearst to head the ticket to victory was denounced as preposterous. Bannard would win, they said.

Gaynor Is Displeased.

Charles F. Murphy and other Tammany leaders continue to brand the entrance of Hearst as a "deal," but at the same time say that Justice William B. Gaynor will be victorious. Justice Gaynor was outspoken in his expression of displeasure at Hearst's entry into the campaign. "I am going through experiences of breach of faith and plighted word," he said, "that I did not deem possible in this case. I have been deceived within a few days after his published declaration that he would support the Brooklyn candidate."

Judge Gaynor announced today that he had decided not to use a dollar in advocating his candidacy and would return all gifts of money proffered him for campaign purposes. He returned two such contributions—one of \$500 and the other of \$1,000—today with letters explaining his attitude. The larger gift came from Abraham Abraham, a Brooklyn merchant, and was returned with the following note: "I have decided not to use a dollar in this election and you will understand me in returning your check. If the people of New York don't want to elect me on my life record and my life work for government and to destroy low and corrupt government and those engaged in it, I assure you that I shall be content."

Will Wait for the Court.

"I was long used to lying and misconstruction as you know, without being affected by it. Nothing that I can say or do will prevent those who want to misinterpret me and what I say from doing so. But we shall wait for the court."

In a similar letter to Schuyler Parsons, president of the Coney Island Jockey club, who sent the \$500 contribution, Justice Gaynor said in part:

"I have been constrained by demands from all parts of the city to run for mayor. I did not ask to run. You see the base lot who are already barking and lying at my heels. I expect the opposition of every county, and I am ready to meet them all and go down if the people of this city are content to let them put me down."

Jerome Withdraws.

As had been predicted for several days, William Travers Jerome issued a statement tonight, formally withdrawing from the contest for re-election as

district attorney as an independent.

"After a further careful reflection it seems to me I ought no longer to continue as a candidate for election to the office of district attorney of New York county, and I have today filed my declaration of the nomination as a candidate for that office."

It became known today that Mrs. O. H. P. Belmont, now prominently identified with the woman suffrage movement, had submitted a series of questions to all three mayoralty candidates. The first question, naturally, is: "Do you favor or oppose extending suffrage to women?"

Mr. Bannard has already answered this question as follows: "That is a legislative and state question with which I, as mayor, would have nothing to do. At present, however, I am in favor of it. I am inclined to think that it will come about ultimately."

HAVE BETTER RACES.

Foreign Auto Events Excel Because of Way Policed.

Bert Dingley, veteran of one Gordon Bennett, one Vanderbilt cup elimination and many California road races and hill climbs, in discussing automobile racing in the United States and abroad, says:

"There is just one great point of superiority in foreign racing," he said. "The courses in France are beautifully policed. The guarding of the course is one point where the Americans have been woefully shy. In France, where every second man is a soldier, and where all have to serve terms in the militia, every inch of the road is well guarded. The course of the Gordon Bennett which I drove was policed by 10,000 soldiers."

"In the matter of the course itself, I believe those of the United States are better. The roads are not finer, but the courses are less tortuous as a rule."

"The great criticism of French races has always been the great number of accidents to drivers and machines. These have done most to hurt the game abroad and have practically done away with the once-famous French events."

"While motor racing is going forward by leaps and bounds in the United States, it is steadily going backward in France."

While followers of motor racing will remember Dingley's earlier career in the east, he has won his greatest fame on the Pacific slope. At Los Angeles, Portland and Altadena he has this season carried the Chalmers colors to victory in many important events. In the Santa Monica events he drove the fastest stock light car race in the history of American motoring. At Portland he upheld his fame as "Daredevil Bert" by driving 103 miles in 104 minutes.

"Hurry Up" Yost believes there are great possibilities in the outside kick and is going to make it a prominent part of Michigan's offensive machine.

CURES ECZEMA QUICKLY.

New Discovery Has Revolutionized the Treatment of Skin Diseases.

Nothing in the history of medicine has ever approached the success of the marvelous skin remedy known as poslam, which, it is safe to say, has cured more cases of eczema and skin diseases than any remedy ever offered for these ills.

The success of poslam is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and cures chronic cases in two weeks. The very worst cases of eczema, as well as acne, herpes, tetter, piles, salt rheum, rash, crusted humors, scaly scalp and every form of itch, yield to it readily. Blemishes such as pimples, red noses, muddy and inflamed skin, disappear almost immediately when poslam is applied, the complexion being cleared overnight.

Every druggist keeps both the 50-cent size (for minor troubles) and the \$2 jar, and either of these may be obtained in Salt Lake City at the F. J. Hill Drug Co., as well as other reliable drug stores. But no one is even asked to purchase poslam without first obtaining an experimental package, which will be sent by mail free of charge, upon request by the Emergency Laboratories, 22 West Twenty-fifth street, New York City.

DEAFNESS CURED

By New Discovery.

"I have demonstrated that deafness can be cured." — Dr. Guy Clifford Powell.

THE SECRETS OF HOW TO USE THE MYSTERY AND INVISIBLE NATURE FORCES FOR THE CURE OF Deafness and Head Noises has at last been discovered by the famous Physician-Scientist, Dr. Guy Clifford Powell. Deafness and Head Noises disappear as if by magic under the use of this new and wonderful discovery. He will send all who suffer from Deafness and Head Noises full information how they can be cured, absolutely free, no matter how long they have been deaf, or what caused their deafness. This marvelous treatment is so simple, natural and certain that you will wonder why it was not discovered before. Investigators are astonished and cured patients themselves marvel at the quick results. Any deaf person can have full information how to be cured quickly and cured to stay cured at home without investing a cent. Write today to Dr. Guy Clifford Powell, 325 Bank Building, Peoria, Ill., and get full information of this new and wonderful discovery, absolutely free.

Something in some ad today is, in reality, a message to you.
